# Carbon Reduction Plan

Supplier name: Krinkels UK

Publication date: 14<sup>th</sup> January 2025

## Commitment to achieving Net Zero

Krinkels UK is committed to achieving Net Zero emissions by 2050.

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: 1<sup>st</sup> May 2023 – 30<sup>th</sup> April 2024</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
Our Baseline reflects the company's financial year rather than the calendar year	
<b>Baseline year emissions:</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
Scope 1	3,274
Scope 2	176
Scope 3 (Included Sources)	6,561
<b>Total Emissions</b>	10,011

## Current Emissions Reporting

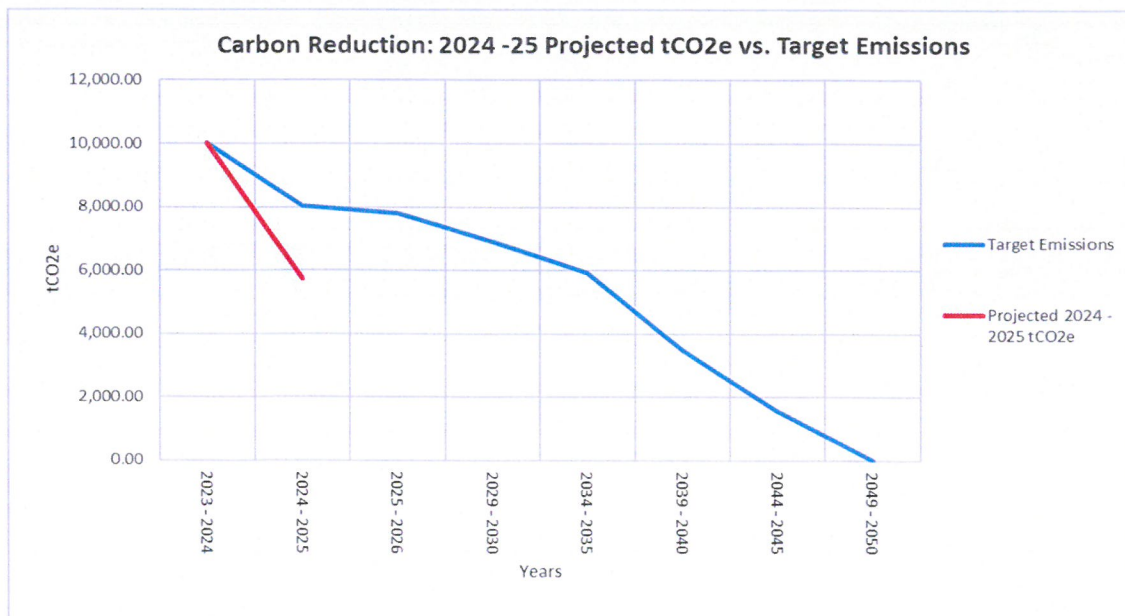

Reporting Year: 1 <sup>st</sup> May 2024 – 30 <sup>th</sup> April 2025 (figures up to November 24)	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	1,850.93
Scope 2	71.48
Scope 3 (Included Sources)	1,083.84
<b>Total Emissions</b>	<b>3,006.25</b>

## Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions within our control (Scopes 1 and 2) will decrease over the next five years to 3,329.59 tCO<sub>2</sub>e by 2030. This is a reduction of 3.62%

Scope 3 emissions will be re assessed against a new set of conversion factors for 2025

Current progress against our 2050 target is demonstrated in the graph below:

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2023 – 2024 baseline. The carbon emission reduction achieved by these schemes equate to 1,974.77 tCO<sub>2</sub>e, a 19.73%ge reduction against the 2023 - 2024 baseline and the measures will be in effect when performing the contract

- Recalculation of Scope 3 emissions using an alternative set of conversion factors due to the removal of the previously used set
- Introduction of alternative fuels where practicable

In the future we hope to implement further measures such as:

- Continuing to introduce alternative fuels and equipment where reasonably practicable
- As improved technologies become available introduce these into our business plan accordingly

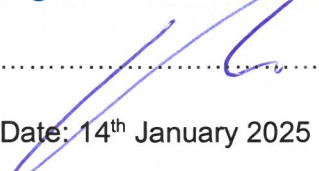

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>. Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
